## Flinders University Transcript of Academic Record

The academic record is cumulative and shows the student's complete course record since the first enrolment at the University. Individual marks are not available on the transcript. A full year workload is represented by 36 units, which is equivalent to 1 EFTSL (Equivalent Full Time Student Load).

Grade Point Average (GPA) is the average of the grades achieved by a student taking into account topic unit values. Values ranging from zero to seven are assigned to each grade, and a GPA is calculated to two decimal places. The value for the grade achieved for each topic is multiplied by the number of units for the topic. The product is totalled for all topics undertaken and averaged by dividing the total number of units, that is:

$$\frac{\text{sum of (value for each grade x topic unit value)}}{\text{total units}}$$

In 1991 Flinders University merged with the Sturt Campus of the South Australian College of Advanced Education. The separate grading schemes of the former institutions (detailed below) were retained until 1993, when the current grading scheme was introduced.

Details of grades prior to 1993 are availabe in the Calendar or Handbook for the relevant institution, year of study and course in question. These details can be obtained on request from Enrolment Services, Flinders University, GPO Box 2100, Adelaide South Australia 5001.

A full explanation of grades and assessment notions from 1993 are published in the Assessment Policies and Procedures available at: **flinders.edu.au**.

The transcript is issued by an approved officer of the University on behalf of the authorised signatory. Any doubt as to the authenticity of the transcript should be brought to the attention of Student Administration Services via **askflinders@flinders.edu.au**

### FLINDERS UNIVERSITY

Grades prior to 1993

| Final Grades | | GPA |
|---|---|---|
| A | Distinction | 6.5 |
| B | Credit | 5 |
